

Site search

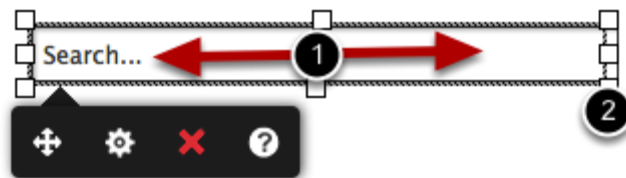

The site search widget makes it easy for people to search your site

Site search widget

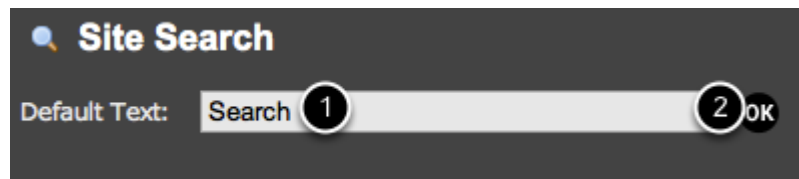

Click the **widgets tab (1)** and then drag the **site search widget (2)** on to your page

Positioning and scaling the site search widget

Click and drag within the widget (1) to move it. Scale the widget by dragging one of the corner handles (2).

Set the default text that appears in the search field

Enter text in the **Default Text field (1)** and click **OK (2)**

Testing the site search widget

The site search widget can be tested in **preview mode (1)**. Type a **search term (2)** and a few seconds later the search result will appear below the widget (3).
